

Stainless Square Panel Diffuser

A-J's Stainless Square Panel Diffuser adds a clean unobtrusive air outlet for any designed ceiling system. Our new satin finish adds a soft, smooth appearance that blends into the ceiling. The face panel is formed from 24 gauge stainless steel. All edges are hemmed to stiffen and maintain a straight and level surface. The panel is easily removable from the frame for access to our optional S-44 OBD.

Factory Standards

- R Type 304 Stainless.
- R All Stainless Steel Construction.
- R Satin finish.
- R Removable panel.

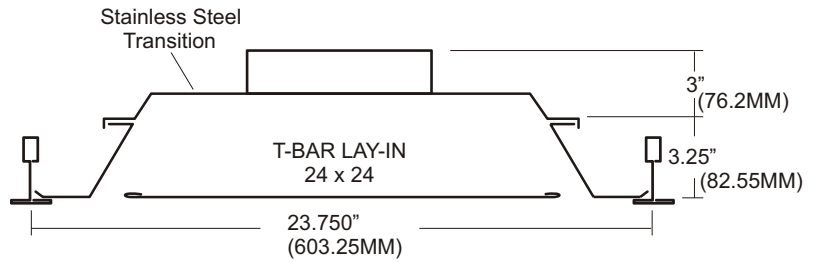

Factory Options
