

## STAMPED FACE STAINLESS DIFFUSER

360 DEG Air pattern delivery maintains coanda effect even at low air flow rates and minimizes smudging.  
 Surface mounted or suspended grid systems.  
 Recommended for constant or variable air volume heating, cooling or ventilating.

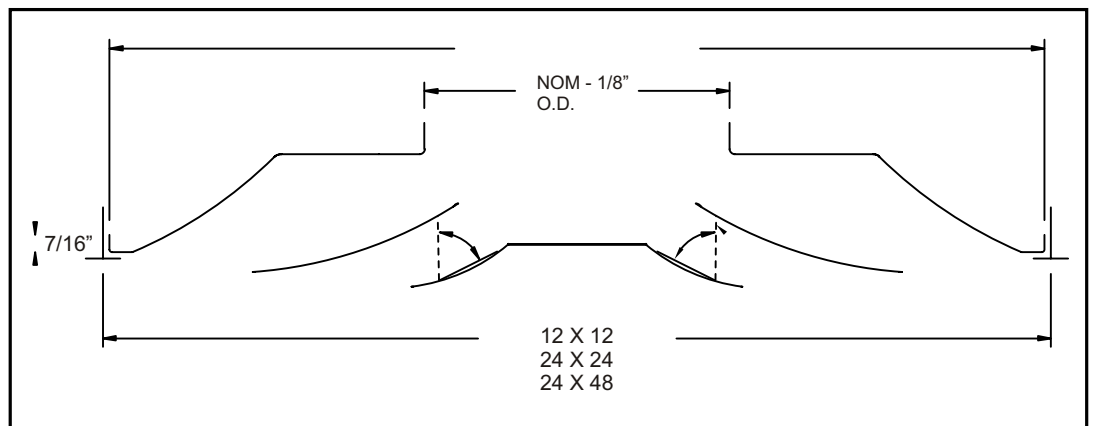

Die stamped cones - no mitered corners.  
 Uniform, 3 cone appearance regardless of neck size.  
 Removable inner cone assembly without use of tools.  
 Optional damper access through center hole with plug button.  
 Standard #3 satin finish.

Optional White powder coated finish.
