

# Clean room projects just got a lot easier.

**Introducing Criti-Clean: the new, more intelligent choice in FFUs, for easier clean room design and construction.**

At A-J Manufacturing, we've put our years of experience and expertise in stainless steel clean air systems into our new Criti-Clean fan filter unit for clean room environments. No other FFU on the market can match our valuable features:

- **Stainless steel construction with all-welded plenum.**
- **Higher CFM output than competitive models.**
- **Computer-controlled, variable-speed ECM motor.**
- **HEPA filter with 99.99% efficiency at 0.3 micron.**

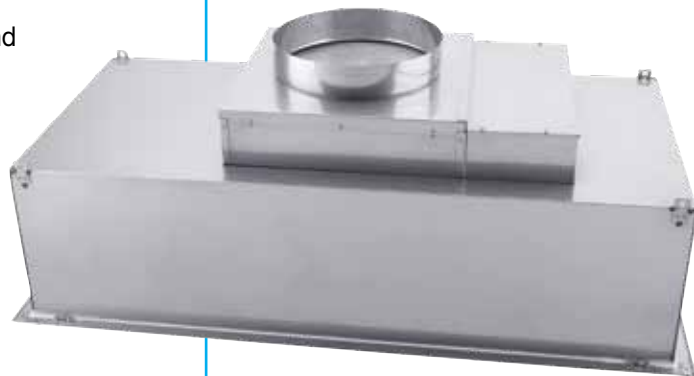

The Criti-Clean FFU provides constant airflow, automatically compensating for changes in filter load, static pressure and more. Plus, our all-welded stainless steel plenum is built to meet the latest pressure testing standards. Call or visit us online for more information on Criti-Clean, the better, more powerful, *smarter* choice in FFUs!
