

# S-44 RC Opposed Blade Remote Cable Damper

The S-44 Opposed Blade Remote Cable Damper utilizes the Young Bowden Cable Control System, enabling accurately balancing dampers even in inaccessible locations -- above hard ceilings, through HEPA filters, behind grilles, or in other similarly difficult to reach locations.

The 3-part system -- damper, Bowden Cable Control Kit, and cable with wire -- is field attached and hand-operated with a 12" (.030) wrench.

The face operating mechanism is screwdriver controlled.

**Factory Standards:**

- Type 304 Stainless Steel
- Fully Adjustable, Positive Air-flow Damper
- Screwdriver Operating Mechanism
- #4 Satin Polished Finish

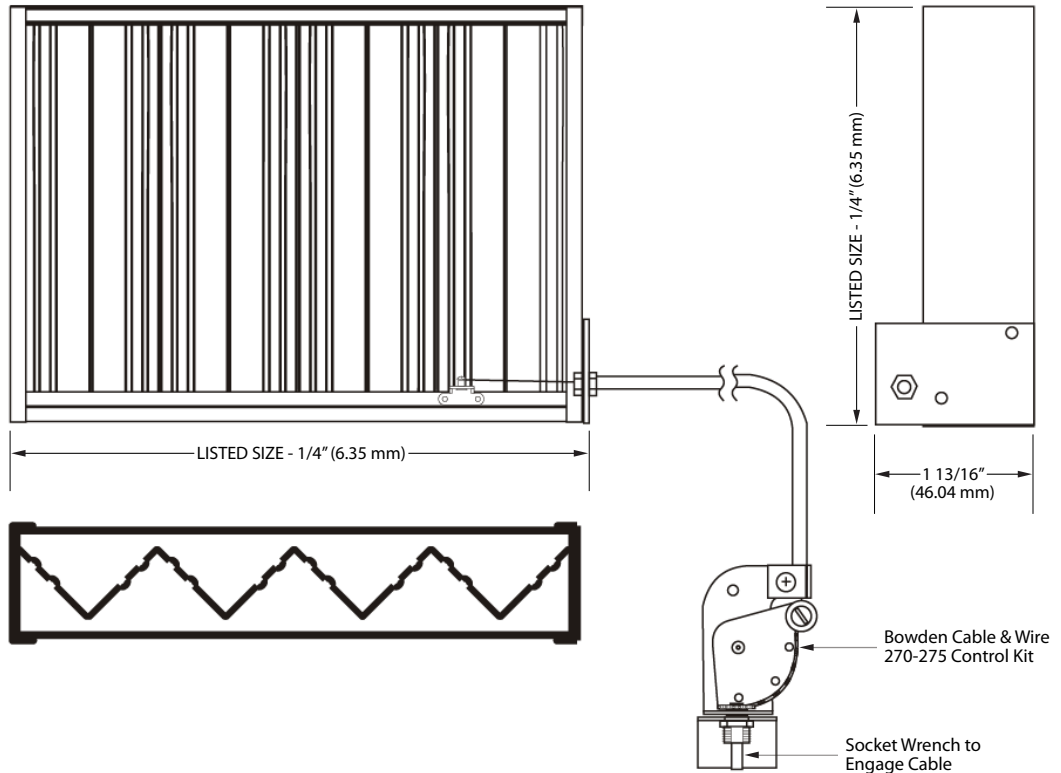

**Factory Options (Extra Charge):**

- Type 316 Stainless Steel, Satin Finish
